

How is the respondent at an interview site selected?

Quality of Life V 2017/18 Survey

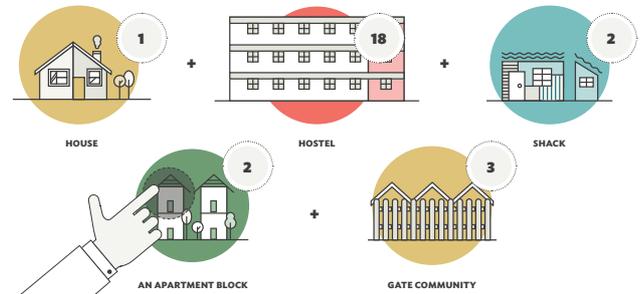

After the target interview sites have been identified they are allocated to a fieldworker. The fieldworker uses a 80m geofence to locate the interview site on the ground. Once located, selection of the respondent can begin.

WHAT KIND OF DWELLINGS CAN BE FOUND AT THE INTERVIEW SITE?

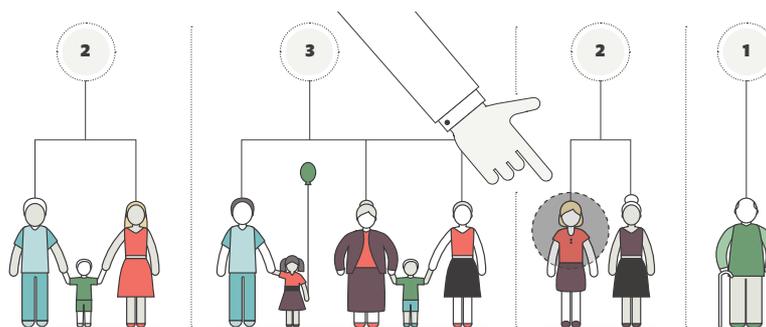

HOW MANY SEPARATE RESIDENCES OR HOUSEHOLDS ARE CONTAINED IN THE DWELLING?

1 residence is randomly selected

HOW MANY ADULTS IN THE HOUSEHOLD?

1 adult is randomly selected to be interviewed
